A Lead Flyer Requirement Health and Safety Code 1596.7996, mandated that, effective January 1, 2019, CCCs and FCCHs are required to provide parents and guardians of children enrolling or reenrolling in care with written information on the risks and effects of lead exposure, blood lead testing requirements and recommendations, and options for locations of affordable blood lead tests as specified. **A Lead Poisoning Facts Flyer was created**, in partnership with the California Department of Public Health (CDPH), to satisfy this requirement. This flyer must be provided to parents and guardians upon enrolling or re-enrolling any child in care.
